From the Principal

School overview

Boronia Heights State School was established in 1990 offering a co-educational program to students from Prep to Year 6. The school is located in the Logan west suburb of Boronia Heights, within the South East Region of Education Queensland. We are very proud of our school and promote a team approach where everyone works together in providing quality educational opportunities for all. We value and respect the differences between all members of the school community and promote strong and productive partnerships between home and school. We believe that: Every student, in every class, each day, will experience educational success, and personal growth and development through our provision of an accessible, engaging and challenging curriculum. We believe that this will be delivered through: Quality teaching and learning informed by research and practice. Differentiated practice informed by data. High expectations for the success of all students and teachers. Contemporary teaching practice. Early identification of needs and proactive intervention. Social, emotional and behavioural support programs. Explicit teaching of expected social and behavioural skills for learning. Allocation of resources in pursuit of improved student learning including extensive professional learning opportunities that ensure staff have the opportunity to collaborate, analyse student work and engage in contemporary classroom practice. Access to a range of digital learning technologies. Enhanced academic, sporting, cultural, artistic and community citizenship programs. Collective leadership. Effective partnerships within and beyond the school community where parents are valued and actively participate in their child's learning. Acknowledgement and celebration of success. Our school has adopted a whole school approach and a united focus on improving literacy and numeracy standards across all year levels. Our explicit improvement agenda is to improve the academic achievement levels of all students through: Consistency of teaching and learning approaches in the priority areas of Reading, Spelling and Numeracy Building the capacity of staff in teaching and in leading educational improvement in priority areas Targeted use of data and differentiated practice Maintaining a safe and supportive learning culture through Positive Behaviour for Learning (PBL). Implementation across the whole school of PBL strategies based on taking responsibility for self and making good choices. Our school operates a Special Education Program which supports the needs of identified students with a disability. The program supports staff in curriculum planning and support strategies for identified students. Boronia Heights State School is an active and productive participant of the local state school cluster of schools. The Logan West Cluster consists of seven neighbouring schools, five primary and two secondary schools. Together we continue to provide valuable joint projects and programs aimed at meeting specific needs of the students, including programs such as Music, Literacy, LOTE, Science and Leadership. Our actions and behaviours reflect our collective commitment to the education and support of our local communities. At Boronia Heights State School we value students who are: Learners Respectful Safe Healthy

The [class size](#) targets for composite classes are informed by the relevant year level target. Where composite classes exist across cohorts (e.g. year 3/4) the class size targets would be the lower cohort target.

Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

Social climate

Overview

Each Queensland state school develops and enacts policies to support an integrated approach to behaviour, learning and teaching.

Our Student Code of Conduct is our school's behaviour policy, with information about school rules, consequences and processes for addressing bullying and the use of technology. A copy of this is available on our school website.

Further information is also available at <https://www.qld.gov.au/education/schools/health>.

Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at <https://education.qld.gov.au/parents-and-carers/community-engagement>

Respectful relationships education programs

Our school has implemented the Respectful relationships education program (RREP) as part of the broad multi-departmental Queensland Government approach to ending domestic and family violence.

The RREP is a Prep to Year 12 prevention program that focuses on influencing behavioural change to build a culture based on equality and respect in our students, staff, parents and wider community, Students are provided opportunities to explore social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, gender roles, stereotypes, human rights, risk and responsible decision-making. A growing body of evidence shows that social and emotional learning of this nature leads to:

- improved social and emotional skills, self-concept, bonding to school and classroom behaviour
- less disruptive classroom behaviour, aggression, bullying and delinquent acts
- reduced emotional distress such as depression, stress or social withdrawal.

Further information is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/respectful-relationships>

School disciplinary absences

Note:

School disciplinary absences (SDAs) are absences enforced by a school for student conduct that is prejudicial to the good order and management of the school.

Environmental footprint

Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

Utility category	2016–2017	2017–2018	2018–2019
Electricity (kWh)	158,167	147,771	159,664
Water (kL)	61,178	6,962	14,522

Note:

Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.

Qualification of all teachers

The Queensland College of Teachers (QCT) is responsible for ensuring that teaching in Queensland schools is performed by an appropriately qualified person, that has successfully completed either -

- (a) a four-year initial teacher education program including teacher education studies of at least one year (e.g. a Bachelor of Education, or a double Bachelor degree in Science and Teaching) or
- (b) a one-year graduate initial teacher education program following a degree (e.g. a one-year Graduate Diploma of Education (Secondary) after a three-year Bachelor degree) or
- (c) another course of teacher education that the QCT is reasonably satisfied is the equivalent of (a) or (b). These are considered on a case-by-case basis.

Professional development

Teacher participation in professional development

Queensland state schools undertake 5 staff professional development days (25 hours) throughout the year:

- 2 days at the end of the summer holidays (fixed)
- 2 days during the Easter holidays (flexible)
- 1 day in the third last week of Term 3 (fixed) on the student free day.
